Click here for Officials Advisory Committee

****Note:** The determination on which section an association belongs to is determined by the counties each association actually service. For example: If the address of an association is in Section 1, but they service more schools in Section 2, their representation for the committee would be for Section 2. The FHSAA has established three Officials Advisory Committee (Fall Sports, Winter Sports, and Spring Sports) to advise the Board of Directors on matters pertaining to the officials' community. Each committee shall meet annually to make such recommendations and forward such comments as it deems appropriate to the FHSAA Board of Directors.

Each elected official will serve a term of three (3) years. To ensure that the terms of the members of the Officials Advisory Committee do not all expire in the same year, terms will be staggered.
